Daniel Marcinowski

Master of Science in Computer Science with an analytical mind and experience in game design, software testing, and data analysis. Interested in working in IT, software development, or technical support. Focused on quality, development, and problem solving.

Experience

Project Kongor (From December 2022 to December 2025) - Game design

Project Kongor is a private server for Heroes of Newerth, made as an attempt at reviving the game, with over 800 000 registered accounts and around 10 000 players online at peak hours.

Kongor Studios (Joined August 2023) - Game design

Kongor Studios is an independent group consisting of original HoN developers from S2 Games, veterans of Frostburn Studios and current contributors from Project Kongor, currently working on Heroes of Newerth: Reborn.

Crash Bandicoot - Back in Time (From February 2024 to January 2025) - Quality Assurance

Crash Bandicoot - Back in Time is an indie platform game available at itch.io.
